

Customer Testimonials

Customer reviews are always welcomed at Tyndall Furniture. We love hearing from our customers! If you would like to leave a testimonial, visit the "Contact Us" page on our website.

Well Sir, you were right! The mattress is incredible...my backache is gone... we both sleep better and even the "Westies" seem to prefer it. Thank you so much. This is the best investment we have made in a long time. Again... thank you for directing us to this mattress set.

- Mr. John Hancock of WBT 1110AM Radio

I honestly feel I have been through as many mattresses as "Carter" has "Liver Pills". Several months ago, I was at a friend's house after working a 12 hour shift and I "just made myself at home" and stretched out for a nap. When I got up, my comment was, "What kind of mattress is that? I want to take that home with me!" Much to my surprise, it was a mattress about 10 years old from Tyndall Pedic! I began to investigate even though I had just bought mattresses less than a year prior to this. I went to Tyndall Furniture in Pineville where Sales Associate Lynn began to explain the technology and show me the mattress selections. At first I was not sure re: "Memory Foam" because I had purchased a "Memory Foam Mattress" from a reputable manufacturer several years ago.....OBVIOUSLY that "Memory Foam" had Alzheimer's!!! The memory did not hang around very long at all! (And neither did the mattress!) Lynn, at the Pineville NC store told me to "make myself at home" and try out the mattresses as long as I wanted. GOT ME ANOTHER GREAT NAP!! I did not feel pushed into a purchase or rushed to make a decision....just "made myself at home" and got a nice nap for a true test of the mattresses. After discussing the details of the purchase I was confident the money I spent would be worth it. The bed/mattresses, were delivered and set up in a very professional and considerate manner and as soon as the bed was ready, I had to try it out and knew from the start, THIS IS GONNA BE GOOD! I have always had problems with back pain and "have to" get out of bed for my back to feel better. HOWEVER, now

with the Tyndall Pedic mattress it is like I am being cuddled all night and DO NOT want to get out of bed! My back pain is so much better and my quality of sleep is MUCH BETTER! Go see Lynn @ the Pineville store, "make yourself at home", get a good nap, then take it home with you (the mattress, that is!) and have the best sleep and rest you have ever had!! Thank you Mrs. Lynn !!! Thank you Tyndall Furniture/Tyndall Pedic!!

- Dulan Mills

My 28 years of playing organized football, 14 years in the NFL, was a wonderful experience. But it was not without a cost. When I retired my back was in such bad shape that I had a high level of pain everyday. Surgery seemed like the only option. It's been several months since my first nights sleep on my Tyndall-Pedic Visco Memory Foam Mattress. I clearly remember my wife loving the mattress the first night we slept on it. However, it took me a couple of months to get used to it. But one thing was for sure, my back pain was slowly disappearing. Today I thank God for the blessing this mattress has been in my life. It is hard for me to believe that my back pain is gone! I go thru each day with no back pain. This is so amazing to me! I honestly thought I would have to live with the back pain the rest of my life.

- Frank Reich, former NFL Quarterback

I'm sleeping better than I've ever slept before. It's the best purchase I have ever made. I have recommended this mattress to two of my patients and have heard back from both of them..... They can't believe how well they are sleeping. I've been very pleased with the fact that my patients are happy and very pleased with the sleep I've been getting. It's a win win no matter how you look at it.

- Dr. Stephen Jackson (Better Health Care Chiropractic)

We love our new mattress. Since being diagnosed with advanced case of acid reflux, we decided it was time to have a mattress that could be raised up so I didn't have to sleep with 3 pillows under my head. We bought the king size so we could have our separate controls which works out great since I read in bed and he doesn't. We are no longer "hot" from our last mattress and sleep really soundly now. I would be amiss if I did not mention our salesman. His name is Steve Clayton and he couldn't have been nicer. There was absolutely NO pressure to buy and even told us to go home and think about it and talk it over. Salesmen don't usually let you out the door without trying to get some kind of commitment. My husband had to try EVERY bed in the store and EVERY pillow and it took forever....but Steve was very patient and answered all of our

questions. We would recommend the mattress highly and our salesman...Steve Clayton. Thanks, Steve!!

- Kathy and Tom Centrella

My wife and I received our mattress last Friday and I never thought that a bed could make that much difference. The Tyndall Pedic mattress we purchased is wonderful and is truly worth the cost. My wife was impressed with the delivery men who were very professional. It was great dealing with Don as well at the store. The purchasing experience was good all around and we are very pleased we decided to try out Tyndall after hearing the commercials on WBT. However, one warning, if you try this bed you will buy it, so be prepared!!

- Paul V.

John Dixon did an excellent job of describing the differences among various mattresses and the superior benefits of the Tyndall Pedic mattresses as compared to the Temperpedic mattresses.. He provided so much info about the Tyndall Pedics, that we felt knowledgeable enough to select one of their best mattresses to be offered.

- Danielle K.

What a great bed! We had previously slept on a high quality spring mattress which needed to be flipped every month. After a year, the old mattress began to develop ruts where we slept. A few years ago, we purchased our first Tyndall Pedic Mattress and it has changed our lives. I often work late at night and I no longer wake my wife getting in and out of the bed. What a great nights sleep!

- David & Vicki Scheppegrell

We love it... you don't get hot in it at night. It's very comfortable. It supports your whole back. I get a lot of headaches and I would wake up with my neck hurting. It doesn't do it as much. My husband loves the new mattress. We have recommended it to our neighbors...they already have one.

- Tonya

It is wonderful...absolutely wonderful. The night before I bought this mattress, I maybe got four hours sleep because of the pain in my hips and legs. I went to bed at 10:00 PM

and I slept until 7:00 AM the next morning. I cannot say enough good things about it and everything you told me is true. I do not toss and turn and the pain is gone.

- Linda

John Dixon was a most helpful salesman. My main objective for shopping at Tyndall Galleries was to purchase four Tyndall mattresses to meet the needs of both my husband and myself. John listened so well and suggested two mattresses. When I returned with my husband, later that week, my husband was sold on the one I really liked of the two John D. had suggested. John D's knowledge of the products saved us time. Needless to say, we are still sleeping well on our purchases.

- Anonymous

We love our Tyndall bed. We got a split king and the thicker mattresses. My wife and I really enjoy being able to independently adjust our mattresses to different positions if necessary, although we both like the "zero G" position a lot. Regardless of the position either of us selects, though, we both sleep better than we have in many years.

- Lou T.

So my husband was recently diagnosed with degenerative disk disease and he's only in his early 40's. It can be quite painful at times. His chiropractor recommended he try switching his mattress out (as we had a spring mattress which is not the best to have for those with back issues) to a Tyndallpedic mattress. We were told they were the best on the market. We thought we'd give it a shot and check it out. As soon as we walked into the Tyndall Furniture store I was impressed with the quality and selection of their furniture. As we walked our way to the back of the store to the mattress room, we discovered they had a huge selection to choose from. They have something for everyone from plush, to firm. It took us a while to narrow it down. We finally decided on the IFOAM 4 mattress. My husband and I LOVE it. We have gotten the best nights sleep since having it! I also love and highly recommend the split adjustment option. It has a remote control for elevating your head, etc which is great if you like to read or watch TV before bed. We ended up deciding to purchase a couch from them as well. We found a plush sectional with remote control reclining, lumbar support for the back and memory foam. It even has a separate reclining/tilting option for the head which is separate from the legs. This couch is by far the most comfortable we've ever bought. Love it!! I also love the lumbar support for my husband. It is generously plush and wide seating, extremely comfortable. I would highly recommend Tyndall Furniture for all your

furniture and mattress needs. The customer service was great and you can't beat the quality and pricing of their products.
